

Auction Paddle Pricing

"All of our paddles are 1-piece, plastic paddles. No paper, no wood, no sticks, no glue, no staples. Just quality paddles that people look and feel good holding. 'Decent' paddles make you more money at auction; just ask any one of our 500 non-profit customers (in just 3 years)!. 90% of our business is selling to non-profits who are extremely cost conscious- and we make it a top priority to get and keep our prices as low as possible. And to that end, know we sell 'any-quantity' replacements that are priced using the CUMULATIVE number of paddles purchased-to-date- helping you save even more over time. We are the ONLY one in the industry doing this- a part of our commitment to bring MORE FUN and HIGHER BIDS to your auctions!"
